## **REASONS FOR ALLOWANCE**

The following is an examiner's statement of reasons for allowance: The instant invention claims a composite material having an optical effect and specific structure.

The closest prior art references that relate to the claimed invention are Rupaner' 131, Biale' 782, '441 cited in international search report. The prior art teaches that it is known in the art to make and use composite materials. However, the prior art does not teach or fairly suggest the instant invention wherein the specific composition and structure of the composite material is claimed. Also, Applicants have submitted a valid terminal disclaimer regarding copending application 10/489419.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to leszek b. kiliman whose telephone number is 571-272-1509. The examiner can normally be reached on M-T, 6.30-5.00.

The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
